History

We started back in 1996 by organizing may be the most challenging event till now – the “International Symposium on the Application of Metabolic Regulation of Pain”. It took place in Yerevan and Stepanakert (Nagorno Karabakh) right after the war with almost no hotels, meeting rooms, restaurants or any infrastructure. Consecutive successfully organized events (conferences, congresses, seminars, round tables, etc...) were permanently adding up to our expertise and skill.

Welcoming foreign scientists and having as one of our goals their exposure to local culture and heritage, as well as taking full care of their leisure during their stay in Armenia, eventually grew us into experts in the field of corporate tourism...

As a result, on 6 April 2006 we registered ActiTour as a separate legal entity specializing in event planning and tourism.

During 11 years we grew up and decided to use possibilities and our experience in a new direction. We conclude agreements with Pharmaceutical companies and representation offices of International organizations in Armenia in field of Outsourcing and Outstaffing services. We really proud that Acti Tour is the pioneer of Outsourcing and Outstaffing services in Armenia.

And the last but not the least step of our business development is name change. Starting from February 2017 we changed the name of company as ACTI GROUP LLC.
